Description

Price: AUD \$239,000

'Titouan' is a sought-after 2000 Beneteau Oceanis 50, now listed exclusively for sale with the team at YOTI Queensland.

The Beneteau 50 combines a Bruce Farr-designed hull with a tried-and-tested layout, proven over thousands of miles. Her fast hull has balanced lines for directional control. It is easily driven by her mainsail with lazy jacks and furling genoa trimmed with Lewmar 66 ST winches, enabling short-handed sailing.

In 2020, 'Titouan' was upgraded with new rigging, an anchor chain, AGM batteries, four Solar Panels, and electronics from Raymarine. All seacocks were replaced with Tru Design, and electric toilets were fitted.

The generous cockpit is fully shaded on deck with a solid composite bimini and windscreen, which is excellent for entertainment. The twin wheels allow easy access from the bathing platform to the cockpit and interior. Her mainsheet traveller is forward of the cockpit, out of harm's way, and her electric halyard winch makes for easy sail handling, all from the safety of the cockpit. The sizeable forward sail locker, generous-sized cockpit, and lazarette lockers provide plentiful storage for all cruising gear.

The interior layout features four double cabins, with two shower compartments forward and two aft toilets accessible from either the aft cabins or the saloon. All cabins offer substantial double berths and excellent locker space.

The Beneteau 50 features a welcoming saloon and open-plan galley, with a central island that serves as an additional galley worktop and storage space and part of the seating arrangement. Cooking is on the gimballed hob and oven, and perishables can be stored in the substantial freezer and fridge (both new in 2020). Aft of the saloon is the dedicated navigation area with an electrical panel and VHF.

This vessel is fully equipped for comfortable and safe cruising, boasting Raymarine instrumentation, including AIS Class B for enhanced safety, a Raymarine Axiom plotter at the Stbd helm, a 240v inverter, and a bow thruster. There are four water tanks with a total capacity of 1000L and two fuel tanks with a 500L capacity.

Titouan has recently been slipped at the Boatworks for detailing and antifouling (June '24). This is an excellent opportunity to obtain a very realistically priced, pedigree Bluewater cruiser from the Beneteau yard, with sensible recent upgrades and maintenance already done.

Contact Robert Vrind for more information and to book your inspection at RQYS in Manly, Queensland.

Features

Designer	Farr with interior by Berret Racoupau
Builder	Beneteau Yachts
Water (Potable) Capacity (l)	1000L in 4 x 250L integral GRP tanks.
