## Description

\*\* NOW SOLD -[CLICK TO VIEW SIMILAR LISTINGS](#)\*\*

'Ataraxia' is a 2022 Hanse 458, now exclusively for sale with YOTI in Queensland.

The Hanse 458 covers all the bases - easy short-handed sailing, extended Bluewater cruising and even racing. A magic blend of a full-size, accessible, modern cruising yacht with standout performance and great features.

Ataraxia presents like new, with an impressive blue water specification, all in a vessel just launched last year. Epower 800a/h Lithium batteries, 530 a/h Victron Solar panels, Mastervolt 2kva inverter/charger and a 140l/h Rainman watermaker, ensure great self-sufficiency.

Her interior is the three-cabin layout, with an inviting, super comfy, bright saloon with a surplus of overhead and coachroof hatches. The spacious L-shaped galley to starboard has twin deep sinks, a gas stove and oven, a top and front opening fridge, a Siemens microwave, and ample storage. The nav station and day head with shower are to port. The impressive-sized master cabin is forward, with separate shower and toilet spaces. Two further comfortable double cabins are to the rear of the saloon.

The large and well-protected cockpit, with teak flooring and seats, is where all the outdoor action occurs. Her fold-down swimming platform ensures easy access to and from the dock/tender. The twin Y-spoke steering wheels provide an unobstructed passage to the forward cockpit. The cockpit table, with fold-down leaves, is fitted with practical hand bars and an internal drinks fridge. A BBQ is mounted to a custom S/steel pushpit bracket, the perfect solution when cooking from the fold-down swimming platform. The hidden sink under the port helm seat completes the outdoor cooking experience. A beautifully made custom Bimini over the helm stations extends aft and incorporates a tender hoist and solar panels. An infill piece connects the bimini to the sprayhood to shelter the entire cockpit.

Ataraxia has a full array of B & G instruments and plotters, upgraded tri-radial Quantum AC 5 mainsail and self-tacking jib, and a North Code 0 on a removable furler. The primary winches are electric, and all lines and halyards lead directly to these powered winches, which are just by the helms. There is even a retractable bow thruster for the occasional tricky marina berthing.

Please call Robert to see this exciting, near-new vessel from one of Europe's leading Yacht Manufacturers. The vessel is located at the Coral Sea Marina, Airlie Beach, Queensland.
